Hotel & Hospitality Photography

We specialize in hotel photography, creating captivating visuals that showcase the unique features of each hotel to prospective guests. As a skilled team based in the Philippines, We focus on delivering tailored photography solutions to corporate hotels. With over a decade of experience in this specialized field, We excel in handling complex assignments, producing visually stunning representations of hotels and their amenities.

Hotel Brand Standards & Guidelines

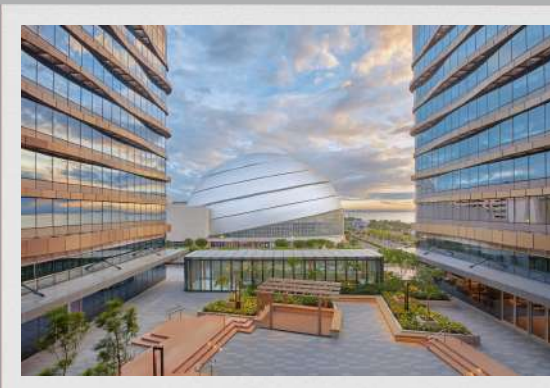

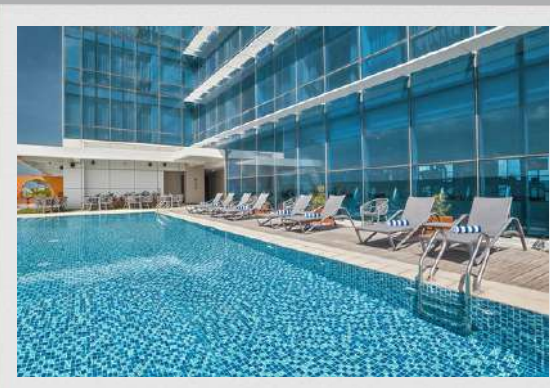

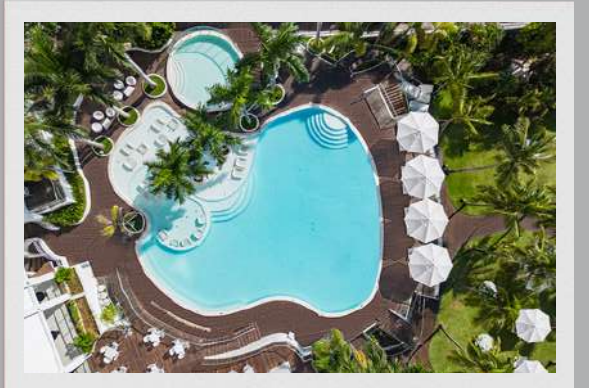

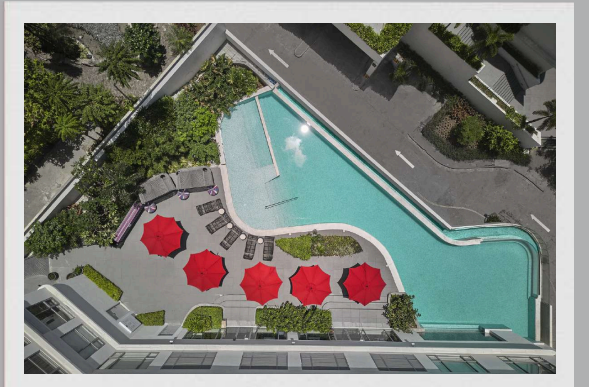

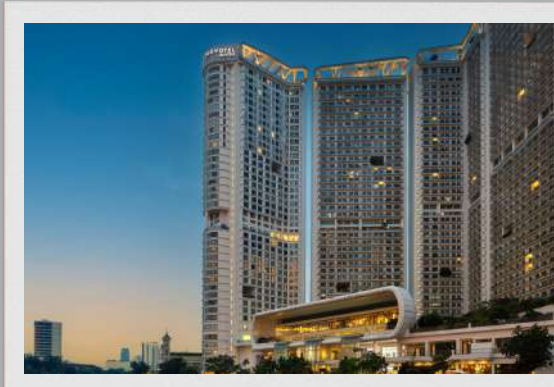

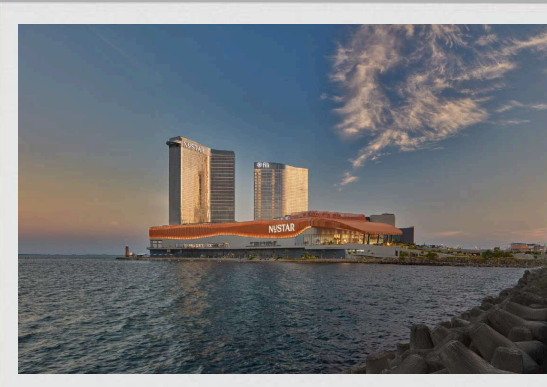

As a Philippine-based Team, it is crucial for us to adhere to these brand standards, as the corporate head office needs to trust that the images created will align with their visual identity.

Our role is to precisely follow these brand standards, ensuring that the final images meet the corporate office's approval.

If your hotel does not have a specific brand standard guide, We will work with you to create a uniform look to match international standard quality, ensuring that the images align with your hotel's identity and help you stand out from the competition.

360 VIRTUAL TOUR

Our expertise lies in designing immersive virtual experiences for hotels, enabling potential guests to explore and appreciate the property even before their arrival.

We offer expert-level retouching and post-production for our 360-degree images, mirroring the services We provide for conventional hotel photographs. The hospitality industry requires impeccable imagery, and We are adept at meeting these high standards for both my 360-degree and standard hotel photography.

Google Maps/Street view

Virtual Tours offer a unique feature where they can be seamlessly integrated with Google Maps and Street View. This integration allows your business to be connected directly to these platforms. With billions of active users on Google, this feature provides an opportunity for your business to be discovered directly from a Google search. This not only increases visibility but also adds a layer of interactivity and engagement to your online presence.
